## Vision:

The Comox Valley is a connected community of thriving people and places promoting health and wellness so all generations flourish.

## Community Health Network Elevator Pitch

The Network is not a group that takes on projects, as that would quickly drain our capacity.

We are a group that holds a “vision” of where we can be heading in the Comox Valley to address the social determinants of health while looking at upstream root causes.

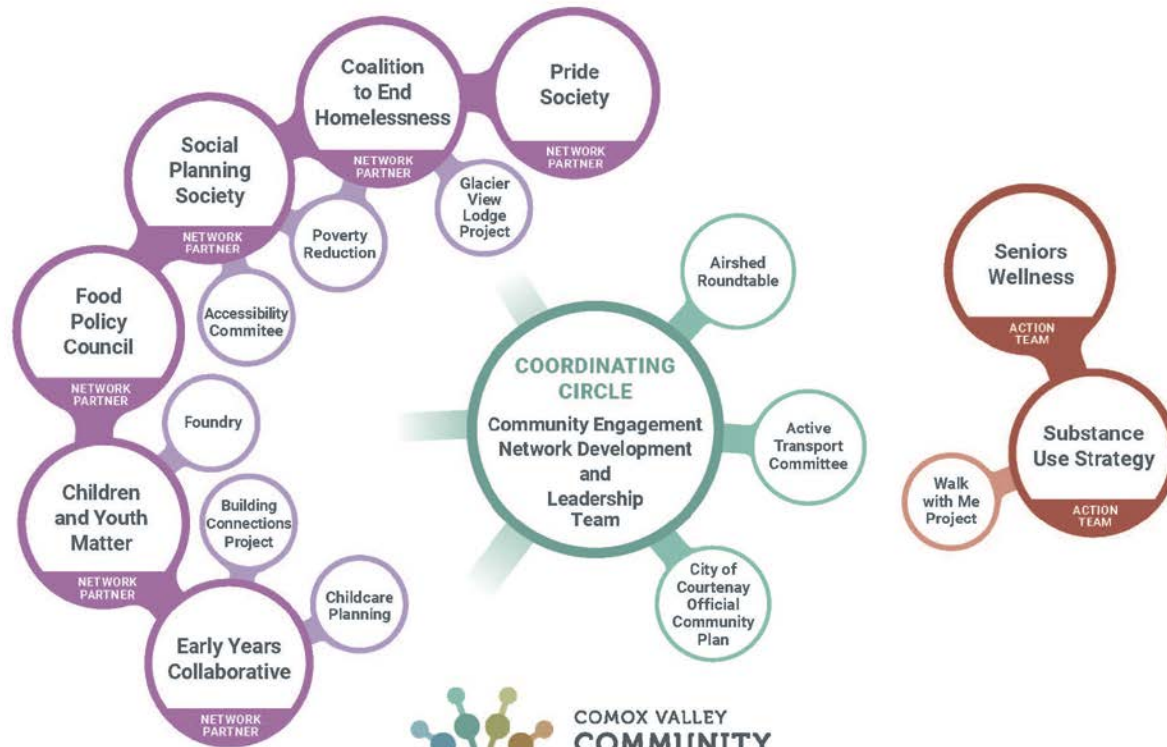

We collaborate with and support those groups that work to address the Social Determinants of Health not with reactive solutions but with thoughtful analysis.
