

Core Services

Regional Emergency Services

STRATEGIC DRIVERS LEGEND

- Fiscal Responsibility
- Climate Crisis
- Community Partnerships
- Indigenous Relations

CVRD Regional Emergency Services provides Comox Valley wide collaboration and coordination of emergency management under the four pillars of emergency management – mitigation/prevention, preparedness, response and recovery.

The CVRD activates and operates the regional emergency operation centre in emergency situations.

Several rural and community fire department services (under a volunteer fire fighter model) are delivered through CVRD.

Key Service Outcomes

- Emergency prevention and mitigation
- Emergency Operations Centre preparedness
- Business and resident emergency preparedness
- Support for emergency staff and volunteers
- KFN partnerships and bridging
- Emergency food supply preparedness

Key 2019 - 2022 Initiatives / Directions	Strategic Drivers	Cost	Public Engagement
1. Completion of the new Regional Emergency Operations Centre – Developing, training, and implementing the EOC personnel plan capable of filling three shifts for a stage 3 activation		\$	
2. Preparation for 2021 earthquake emergency exercise		\$\$	
3. National Disaster Mitigation Program – Flood Risk Mapping for entire CVRD Coastline, in collaboration with CVRD Planning		\$\$	
4. Constructing the Merville fire services building		\$\$\$	
5. Feasibility for Mount Washington fire service building		\$\$\$	
6. Community Fire Smart Program and wildfire protection planning		\$	
7. Develop a Regional Emergency Program Service delivery model (incorporating EOC After Action Report findings)		\$
