

Core Services

Sewage Treatment

STRATEGIC DRIVERS LEGEND

- Fiscal Responsibility
- Climate Crisis
- Community Partnerships
- Indigenous Relations

CVRD owns and operates conveyance and treatment infrastructure for wastewater from the communities of Courtenay, Comox, CFB Comox (19 Wing) and K'ómoks First Nation (by service contract). The Comox Valley Water Pollution Control Centre (CVWPCC), commissioned in 1984, is a secondary wastewater treatment facility. The CVRD Board delegates operational and administrative decisions to the Comox Valley Sewage Commission.

The CVRD also provides liquid waste management planning on sewer and septic matters in the electoral areas.

Key Service Outcomes

- Asset management
- Affordability of service
- Infrastructure resiliency to climate change impacts
- Partnerships with KFN
- Reduce storm water infiltration
- Willemar Bluff risk reduction

Key 2019 - 2022 Initiatives/Directions	Strategic Drivers	Cost	Public Engagement
1. Comox Valley Liquid Waste Management Planning (LWMP) to select optimal conveyance solution, level of treatment for the Comox Valley Water Pollution Control Center and explore opportunities for further resource recovery		\$\$	
2. Comox Valley Sewer Conveyance Project		\$\$\$	
3. Upgrades and equipment at the CVWPCC to address odour, good neighbour, operations		\$\$\$	
4. Advance collaborative sewer services, in particular through decisions to treat wastewater from Royston and Union Bay at the main treatment plant		\$\$\$	
5. Major capital upgrades at the biosolids compost facility to increase the capacity by 50 percent now complete		\$\$
