Subject: Variance Permit Application 2186 Endall Road

To whom it may concern,

My wife and I have been away from our home since December 14, 2017 and did not become aware of Phillip Ludwig's variance application or of the opportunity to comment until our return this week. Despite the time limitation for comments as stated in your letter of December 21, 2017 we would appreciate opportunity to offer our input.

Our family has resided on Sturgess Road since 2000. We chose this area as it promised the rural experience we were seeking to raise our family and enjoy our horses, dogs, cats and chickens.

Phillip and his family have always been sensitive to those of us living in close proximity. Yes we can hear his sawmill but it is a respectful endeavour, not run continuously and only during normal working hours. It's also exactly what we expected when we moved here and we've never found it excessive or offensive. There may be some that feel the smells and sounds that accompany living in this setting are disruptive but everyone here in our neighbourhood contributes to it's ambiance in some way.

We fully support the approval of Phillip Ludwig's Development Variance Permit Application.

Sincerely,

Tom and Tish Langdon
