

Oct 2/20

Dear Comox Valley regional district.

I Jeanne Garic am the home owner of 1902 mariner road the lot beside 1904 mariner road. The secondary house in question at 1904 is built in the far back right hand corner of thier lot. The pictures they have provided do not show how close the secondary house is to mine and that it faces my home and yard not thiers. My privacy if used as a rental or home will be greatly impacted as well as the property value of my home. The height of the building in question the front door and windows face my home and yard and are above the fence line. The pictures provided by 1904 do not show this at all. This is very concerning to me and as a rental I know this will elliminet my privacy in my own yard and home. I found a letter in my driveway on Oct 1st from the owner of 1904 that states if I am not agree able to the house in question as it sits that she will be moving the house to a different location in her yard that complies with all the bylaw and legal codes. That is her right to do so and I feel that this letter she has given is threaten and intamadating and has nothing to do with the facts that the building in question does not conform to the bylaws. I am now feeling very uncomfortable and uneasy with what this out come will be as this efacts my not only my privacy but quality of life in my own home and yard. I feel bullied and oppose the request for variance.

Respectfully  
Jeanne Garic
