Subject: Plateau Road temporary use permit

I would like to start by thanking the Directors and staff for their time spent on this application As a member of the Vanisle Airfield Society I support this application I would also like to thank the property owners and supporting neighbours for the chance to use this property if approved

I would also like to comment on some of the park users concerns about fire and noise I have been involved in drag racing for more than 20 years, in all of my experience there has never been a fire causing property damage, we also have taken many precautions to prevent fire The noise is part of the event that is hard to get away from, and as all involved know this is why we have limited the hours of the testing I have a couple of suggestions (I am not telling anyone what to do) there are several hours before and after the proposed events that there will be no noise. We are asking for 6 days use in an entire year, if the earlier or later hours are not suitable for park users perhaps on these dates they may use one of the several other parks available throughout the Comox Valley Thanks again Vince Smith
2679 Meadowbrook Court, Courtenay
